

Mobile QuickStart

Overview

The objective of the **Mobile QuickStart Program** is to help clients be as successful as possible with Couchbase Mobile as quickly as possible. Our expert consultants will supplement the client's team by providing best-practice advice on topics including those described below:

- Mobile use case and architecture review
- Developing an application using Couchbase Mobile and Couchbase Lite
- Installation and Configuration of the Sync Gateway:
 - Data Modeling for Sync Gateway
 - Sync Rule
 - Security
 - Scaling (both Server and Sync Gateway)
- Tuning and optimizing Couchbase for the mobile application
- Devising & implementing performance measurement strategies
- Troubleshooting techniques
- Deploying an application into production
- Couchbase monitoring and alerts

Engagement Approach

This program is provided on-site as a **three-day engagement**.

The typical approach for an Mobile QuickStart engagement is as follows:

- An initial meeting is held remotely to understand the client's application and discuss the desired focus of the engagement.
- Couchbase will request pre-requisites based on the focus of the engagement, including architecture diagrams and configurations to prepare for the on-site engagement.
- On-site engagement dates are planned and logistics are discussed with clients.
- On-site engagement follows. All discussions here will be confidential and information is collected only to help with architecture, data design, and sizing recommendations.
- The Couchbase team will work with the customer to implement a pilot application in only one of the following platforms for the QuickStart iOS (Objective C), iOS (Swift), Android (Java) or Xamarin.

Time and Duration: This engagement provides up to a total of **3 days of Couchbase consultant time on-site**. An additional 8 hours of remote time is included for deliverable creation and review.

Expenses: Reasonable travel and expenses incurred in conducting on-site activities at the client's site shall be billable to and paid by the client upon receiving invoice with expense report and receipts.
